## **AIHA Contributes to Indoor Air Conference 2011**

FAIRFAX, VA – February 22, 2011 -- The American Industrial Hygiene Association® is a proud Bronze Oak level sponsor of the 2011 Indoor Air Conference. The conference takes place in Austin, Texas on June 5 - 10 and will exhibit the latest in indoor air (IAQ) technology and monitoring. The Indoor Air Conference will showcase paper submissions from 85 countries to over 1,100 attendees. Additional Indoor Air 2011 conference happenings include featured speaker J. Craig Venter and the release of the results to a recent NSF study on indoor air. Nearly one quarter of AIHA members specialize in IAQ assessments, prompting our association to recognize and promote the importance of such an event. The collaboration of industry thought leaders and advances in IAQ technology produce results which are echoed throughout the profession. AIHA encourages the type collaborative learning and idea sharing which will be exhibited at the Indoor Air Conference. These learning endeavors are central to those AIHA members involved in Indoor Environmental Quality, and our mission at-large.

For more information on the Indoor Air Conference, please visit <http://www.indoorair2011.org/> or call Cath Polito at (512) 659-1015.

For information on AIHA's Indoor Environmental Quality volunteer group, please visit <http://www.aiha.org/insideaiha/volunteergroups/Pages/IEQ.aspx?highlighting=IEQ>

### **About the Center for Lifelong Engineering Education**

The University of Texas at Austin's Cockrell School of Engineering is one of the Top 10 distinguished engineering schools in the country. Our professional development department, the Center for Lifelong Engineering Education, provides busy engineers with immediately applicable, real-world knowledge through individual courses, master's degrees and on-site custom courses.

What Starts Here Changes The World.
